SCR3310

The Premier USB Smart Card Reader Solution

PC Security Solutions

Overview

The SCR3310 continues the line of SCM Microsystems' market-leading smart card reader products based on the STC II smart card interface chip. It supports multiple security applications including PKI, digital signature and personal identification, all in a compact, mobile device.

The device includes support for USB and relevant security standards.

Together, these features enable high performance, cost effective programs for secure logical access in any environment.

Compact and elegant, the SCR3310 offers the best price/performance ratio in the market.

SCR3310 Benefits
