- 100 Nox-2 Paper UHF Tags
- 1 Sample Pack of Metal UHF Tags
- 1st Year Premium phone Support

- Customer Provides POE Switch, Network Cabling, Mounting And Windows 7 Computer

Simple, Solid, and Proven

Industry Leading Technology

The RFID Kit couples robust UHF and Video Capture hardware with Simply RFiD's powerful NOX Asset Tracking and Surveillance software.

Service and Support Every TTS-K-UHF is backed with one-year phone technical support.

Easily Scalable Optional Add-On Kits make it simple to scale the system to any size.

The screenshot displays the NOX software interface. At the top, there are navigation tabs: SEARCH, LIVE FEED, HISTORY, VIDEO, DOD, and SETUP. The main content area is divided into several sections:

- Item Detail: Keyboard**: Shows metadata for a keyboard, including Item Alias (Keyboard), Description (Microsoft Wireless Keyboard Asset), Inventory Date (10/15/2010 12:14:27 PM), Inventory Location (PackStation), Inventory Status (Checked Out), Inventory User (James Martin), and RFID Tag # (2F20347334C1300000018). There is also a 'no photo' placeholder and an 'Add Notification' button.
- Read History**: A table listing tracking events with columns for Location and Time. The entries show multiple reads from 'PackStation' at various times throughout the day.
- Selected Read**: A video window showing a person walking with a box. Below the video, it displays 'Status: present', 'Location: PackStation', 'Time: 9/27/2011 1:31:08 PM', 'Trigger: No', and 'Notified:'. A caption below reads 'Last Captured Video Of Item'.
- Legend**: A text box explaining the status indicators: 'Each time item was tracked', 'Green Up = Item Located', 'Red Down = Item Missing', and 'Camera = Video Available'.
