

evolIS

Evolis Half-Panel YMCKO Ribbon (R3013)

Compatible with any Evolis color card printer

Stretch Budgets by Slashing Costs

The Evolis half-panel ribbon offers a unique opportunity to cut costs by as much as 42%.* By decreasing the length of the color panels in the ribbon by half the standard size, each ribbon can produce 400 color prints instead of the standard 200. This makes the R3013 ribbon the perfect fit for school ID badges or membership cards where the color printing is no bigger than a logo or ID picture versus an entire ribbon.

Common Applications

- School ID Cards
- Transportation ID Badge
- Employee ID Badge
- Club Membership Cards

Idewild Elementary

Brad Amrine
Student
5th Grade
03/21/1999

Card printed with using only a R3013 ribbon

Color Printing Width 1 3/8" (35 mm)
Color Printing Height 2 1/8" (54mm)

Lake Ridge High School
